## Project Type: Drainage and Storm Systems

Job #	Project Name	Final Contract
580	Dakin Avenue Box Culvert & Utility Improvements Project	\$944,952

**Owner:**

City of Kissimmee

**Scope of Work**

Improvements to approx. 3,000 lf of existing 4'x5' concrete box culvert; clean interior, patch surface, fill joints/cracks; install additional access manhole; repair storm sewer lateral connection, replace damaged sections of culvert; relocate water mains & replace sanitary sewer that cross through the culvert.

Job #	Project Name	Final Contract
573	BP-036, Airfield Stormwater Drainage Improv. Phase 5 @ OEA	\$529,892

**Owner:**

Greater Orlando Aviation Authority

**Scope of Work**

Repairs to the existing Airfield Stormwater Drainage System @ Orlando Executive Airport. Work involved complete inspection and desilting of approximately 4040 lf of storm water lines. After inspection repairs were made based upon line condition. Pipe liner was installed, joint repairs were made, or new CIPP was installed. Nine storm inlets were replaced. Chemically grouted 314 joints. Trenching, stormwater sewer pipe installation, inlets, cast-in-place pipe liner & pavement replacement for open trenches.

Job #	Project Name	Final Contract
566	Winter Park Drive North Realignment	\$5,661,289

**Owner:**

City of Casselberry

**Scope of Work**

Construct approx. 1.5 miles of two lane roadway through an undeveloped ROW along with supporting drainage & utility infrastructure. Work included excavation, embankment, stabilization, base, asphalt, reinforcing steel, lift station, mast arm assembly, signalization, MOT, irrigation. Drainage system included approx. 11,250 lf RCP 24"-42", 32 inlets and 28 manholes; utilities included approx 2,361 lf 8" potable water main with 14 service connections, approx 2,334 lf 8" reclaimed water main with 12 service connections and approx 4,487 lf of 6"-10" PVC sanitary sewer with 17 manholes and 25 service connections.

Job #	Project Name	Final Contract
563	Lake Tyler Sediment Removal Structures	\$1,089,616

**Owner:**

Orange County Highway Construction

**Scope of Work**

Project consists of the installation of three pre-fabricated Stormwater Treatment Units, 3 cfs and 14 cfs capacity. Two of the sediment removal structures were installed within a residential condominium complex and one was installed within an apartment complex. Installation of 1,148 LF of 15", 30" 36" concrete pipe along with three end treatments. Performed chemical grouting of soil to stabilize structures close to excavation area. Replaced 3500 SY of sod to match existing landscape conditions.

## Project Type: Drainage and Storm Systems

---

Job #	Project Name	Final Contract
549	Rockledge Road Area Sanitary & Storm Sewer Construction	\$2,170,568

**Owner:**

City of Orlando

**Scope of Work**

Construction of Sanitary and Storm Sewer in an existing subdivision. Work included installation of approx 1,110 LF of RCP Storm Sewer pipe from 18" to 24", installation of 10 structures, 43 manholes, 9,387 LF of 8" PVC Sewer Main, 200 4" lateral services and clean-outs, remove and replace approximately 2265 LF of curb and gutter, remove and replace 1000 SY of 4" concrete sidewalk, 2000 SY of 6" concrete driveway, installation of approx 24,500 SY of reclaimed asphalt and approx 10,000 SY of sod.

---

Job #	Project Name	Final Contract
516	Tohopekaliga Avenue Extension	\$3,056,408

**Owner:**

City of Kissimmee

**Scope of Work**

Project included the construction of a new four lane roadway, 4,000 lf of storm pipe from 60" to 18" and under drain, communication ducts, fencing, striping, geoweb, MOT.

---

Job #	Project Name	Final Contract
514	Parktowne Industrial Center Ph-1 Drainage and Utility Improvements	\$1,400,443

**Owner:**

City of Edgewater

**Scope of Work**

Project included the construction of two (2) stormwater ponds which entailed about 50,000 CY of earth and rock excavation, a 1,100 lf drainage ditch, a 2,300 lf storm drainage system with piping ranging in size from 54" down to 24", 1,800 lf gravity sanitary system installed to a depth of 12', and various utility adjustments and connections. Mr. Ken Hooper was the City's Project Manager on this project.

---

Job #	Project Name	Final Contract
503	Martin Luther King Jr. Boulevard, Phase I	\$3,803,645

**Owner:**

City of Kissimmee

**Scope of Work**

Project consisted of 2,900 lf of new two-lane roadway construction including water main, storm and sanitary sewer, retention pond excavation, curb, sidewalk, signalization, irrigation and sod.

---

Job #	Project Name	Final Contract
488	West Ramp Phase 2 and West Access Road	\$1,571,896

**Owner:**

Kissimmee Gateway Airport

**Scope of Work**

Construct aircraft parking apron to include: storm, grading, base, asphalt, markings, electrical.

## Project Type: Drainage and Storm Systems

---

Job #	Project Name	Final Contract
480	Old Winter Garden Road & Professional Parkway	\$6,997,105

**Owner:**

City of Ocoee

**Scope of Work**

Project required the widening of 1.262 miles of existing Old Winter Garden Rd. from a 2 lane road into a 4 lane divided roadway. Work included utility relocations/improvements, storm pond excavation, storm drainage system installations, signalization, fencing, landscape & irrigation, signage, and pavement markings. Relocation and improvements of Sprint Telephone facilities located within the right-of-way of this project.

---

Job #	Project Name	Final Contract
472	Cranes Roost PS Modif. & Reuse Weir Structure	\$406,220

**Owner:**

City of Altamonte Springs

**Scope of Work**

Rehabilitation of storm water pump station from Cranes Roost, new 150 HP vertical turbine pumps, new controls. Also, sheet down to existing 21" gravity sewer & pour concrete structure for reclaimed water supply enhancement.

---

Job #	Project Name	Final Contract
471	Budinger Avenue Roadway Improvements	\$390,252

**Owner:**

City of St. Cloud

**Scope of Work**

Construction of water main, 30" storm drainage, roadway and signalization improvements.

---

Job #	Project Name	Final Contract
468	Crystal Lake Stormwater Improvements	\$296,456

**Owner:**

City of Clermont

**Scope of Work**

Work consists of clearing & grubbing, earthwork, construction of storm drainage system, installation of 6 baffle boxes to treat stormwater, grading and misc. work.

---

Job #	Project Name	Final Contract
457	Drury Avenue Improvements	\$577,125

**Owner:**

City of Kissimmee

**Scope of Work**

1169 LF of paving to improve road, sanitary and storm sewer drainage, utilities, paving and sidewalk

"Our People make the difference with Pride, Integrity and Quality"

---

## Project Type: Drainage and Storm Systems

---

Job #	Project Name	Final Contract
452	Sugarberry Ditch	\$200,253

**Owner:**

City of Oviedo

**Scope of Work**

Installation of 30"- 42" HDPE storm drainage system in residential area under tight working conditions with 15' distance between homes.

---

Job #	Project Name	Final Contract
451	East Palmetto Avenue Improvements	\$1,116,051

**Owner:**

City of Longwood

**Scope of Work**

Storm replacement, road construction, new water lines, sanitary sewer, sidewalks, driveways, MOT, landscaping and sodding.

---

Job #	Project Name	Final Contract
410	17-92 Vacuum Sewer - North Utility System Expansion	\$739,567

**Owner:**

City of Longwood

**Scope of Work**

Installation of approx. 10,000 LF of 4" and 6" sewer pipe for an extension of existing vacuum sewer system and approx. 7,150 LF of 8" watermain. Work consisted of dewatering, excavation, restoration and sod.

---

Job #	Project Name	Final Contract
395	Rio Grande Intersections: Drainage, Sanitary & Traffic Improve.	\$1,254,120

**Owner:**

City of Orlando

**Scope of Work**

Drainage & sanitary improvements at Rio Grande intersections. Work included concrete pavers & header curb in 2 intersections, new concrete curbs & asphalt pavement, replacement of concrete curbs, sidewalk, wheelchair ramps, digging large retention pond and installed storm drain control structures and weirs. This pond helped eliminate flooding in a College Park neighborhood.

---

Job #	Project Name	Final Contract
388	Boyd Street Phase 3: Vineland Rd & Palmetto St Rehab.	\$861,082

**Owner:**

City of Winter Garden

**Scope of Work**

Replacement of sanitary & storm sewer on two city streets and complete reconstruction of streets, including asphalt paving, curbs, sidewalks, grading and grassing, MOT and temporary erosion control..

## Project Type: Drainage and Storm Systems

---

Job #	Project Name	Final Contract
379	Guernsey Basin Drainage Improvements Phase 2	\$1,131,996

**Owner:**

City of Orlando

**Scope of Work**

Approximately 1500 lf of 54" and 48" RCP was installed down the center of a historic brick paved street, the installation was deep enough to require the whole street to be removed and reconstructed. The storm system ended with a submerged outfall structure in Lake Adair which required a sheeted coffer dam to install in dry conditions. All brick pavers were cleaned and re-installed per the City requirements. As part of this project 2 new brick roundabouts were created. The storm installation included several inlets, conflict structures and manholes. 300 LF of Gravity sewer and new water services were installed for all residents in the construction area. Critical OUC (Florida Hospital) utilities were inspected and protected as part of the project. During the project all residents were provided access to their homes and all home delivery or pick up services were maintained at all times.

---

Job #	Project Name	Final Contract
373	GOAA, OIA, Operations Fire Training Facility	\$946,056

**Owner:**

Greater Orlando Aviation Authority

**Scope of Work**

Construction of 3-story fire training facility, 2 acres of 8" concrete paving, fire lines, storm, grading, GEO synthetic liners

---

Job #	Project Name	Final Contract
313	Gore Street Outfall Improvements	\$902,487

**Owner:**

City of Orlando

**Scope of Work**

Construction of an alum chemical feed system for the Gore feeder canal into Clear Lake. Work includes storm drainage, box culvert, concrete slope paving, dewatering, flac pump station, flac curtain.

---

Job #	Project Name	Final Contract
298	Mill Creek Year 3A Drainage Improvements	\$597,286

**Owner:**

City of Sanford

**Scope of Work**

Continuation of storm drainage system. Work included installation of large diameter RCP, box culvert, manholes, sanitary sewer relocations, pour-in-place headwalls, by-pass pumping, excavation of two retention ponds (approx. 60,000 CY), curbs & walks, base, asphalt paving.

---

Job #	Project Name	Final Contract
278	Mill Creek Year 2 Drainage Project	\$719,985

**Owner:**

City of Sanford

**Scope of Work**

Installation of storm drainage system including precast manholes, inlets, 58" x 91" elliptical RCP, 8' x 4' precast box culvert, excavation, dewatering, pour-in-place concrete structures, fabriform, by-pass pumping of existing ditch, open cut in roadways,
